ABSTRACT:

PURPOSE: To reduce both the customer's burden and shop's facilities costs at the same time in the case of accumulating special benefits information issued each time purchase is made.

CONSTITUTION: A storage area 23 where the accumulated special benefits information up to the previous purchase and before a closing key is pressed 12 is stored is provided. When the closing key is pressed 12, the special benefits information corresponding to the sum of dealings is automatically calculated 21. The current special benefits information is added to the accumulated special benefits information stored in the storage area 23 for obtaining the accumulated special benefits information so far. The special benefits ticket on which the accumulated special benefits information so far is printed is printed out following a receipt issued for the current dealing 28.
